Forward-Looking Statements and Non-GAAP Financial Measures

Forward-Looking Statements

This presentation contains certain statements that are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements included herein, other than statements that relate solely to historical fact, are "forward-looking statements." Such statements include, but are not limited to, any statement that may predict, forecast, indicate or imply future results, performance, achievements or events, or any statement that may relate to strategies, plans or objectives for, or potential results of, future operations, financial results, financial condition, business prospects, growth strategy or liquidity, and are based upon management's current plans and beliefs or current estimates of future results or trends. Forward-looking statements can generally be identified by phrases such as "believes," "expects," "potential," "continues," "may," "should," "seeks," "predicts," "anticipates," "intends," "projects," "estimates," "plans," "could," "designed," "should be" and other similar expressions that denote expectations of future or conditional events rather than statements of fact. Our expectations, beliefs and projections are expressed in good faith, and we believe that there is a reasonable basis for them. However, there can be no assurance that these expectations, beliefs and projections will result or be achieved.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this presentation, including risks related to economic downturns, substantial competition and rising operating costs; risks related to our investment activities, including the nature of the investments made by the private funds in which we invest and the impact of the use of leverage through options, short sales, swaps, forwards and other derivative instruments including the risk of counterparty termination and early settlement of such positions; risks related to our ability to comply with the covenants in our senior notes and the risk of foreclosure on the assets securing our notes; risks related to our ability to refinance our debt; our ability to continue to meet our liquidity needs; declines in the fair value of our investments, losses in the private funds and loss of key employees; risks related to our ability to continue to conduct our activities in a manner so as to not be deemed an investment company under the Investment Company Act of 1940, as amended, or to be taxed as a corporation; risks related to short sellers and associated litigation and regulatory inquiries; risks related to our general partner and controlling unitholder; pledges of our units by our controlling unitholder; risks related to our energy business, including the volatility and availability of crude oil, other feed stocks and refined products, declines in global demand for crude oil, refined products and liquid transportation fuels, unfavorable refining margin (crack spread), interrupted access to pipelines, significant fluctuations in nitrogen fertilizer demand in the agricultural industry and seasonality of results; volatile commodity pricing and higher industry utilization and oversupply; risks related to the potential acquisition by CVR Energy from indirect subsidiaries of Marathon Petroleum Corporation of certain refining assets (the "CVR Acquisition"), including the risk that the CVR Acquisition is not completed within the expected timeframe or at all, or that CVR Energy is unable to realize the anticipated benefits of the CVR Acquisition; risks related to the financing of the CVR Acquisition; risks related to other potential strategic transactions involving our Energy segment, and the impact of tariffs; risks related to our automotive activities and exposure to adverse conditions in the automotive industry; risks related to our food packaging activities, including competition from better capitalized competitors, inability of our suppliers to timely deliver raw materials, and the failure to effectively respond to industry changes in casings technology; supply chain issues; inflation, including increased costs of raw materials and shipping; interest rate increases; labor shortages and workforce availability; risks related to our real estate activities, including the extent of any tenant bankruptcies and insolvencies; risks related to our home fashion operations, including changes in the availability and price of raw materials, manufacturing disruptions, and changes in transportation costs and delivery times; the impacts from the Russia/Ukraine conflict and conflict in the Middle East, including the U.S. – Israel and Iran war, and any related economic volatility, disruptions to global commodity markets, export controls and other economic sanctions; and political and regulatory uncertainty, including changing economic policy and the imposition of tariffs. These and other risks and uncertainties are described in our filings with the Securities and Exchange Commission including our Annual Report on Form 10-K and our quarterly reports on Form 10-Q under the caption "Risk Factors". There may be other factors not presently known to us or which we currently consider to be immaterial that may cause our actual results to differ materially from the forward-looking statements.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this presentation and are expressly qualified in their entirety by the cautionary statements included in this presentation. Except to the extent required by law, we undertake no obligation to update or revise forward-looking statements to reflect events or circumstances after the date such statements are made or to reflect the occurrence of unanticipated events.

Non-GAAP Financial Measures

This presentation contains certain non-GAAP financial measures, including EBITDA, Adjusted EBITDA and Indicative Net Asset Value.

The non-GAAP financial measures contained herein have limitations as analytical tools and should not be considered in isolation or in lieu of an analysis of our results as reported under U.S. GAAP. These non-GAAP measures should be evaluated only on a supplementary basis in connection with our U.S. GAAP results, including those reported in our consolidated financial statements and the related notes thereto contained in our Annual Report on Form 10-K for the year ended December 31, 2025 and our subsequent quarterly reports on Form 10-Q. A reconciliation of these non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures can be found in the back of this presentation.

(4) The amount and timing of redemptions would depend on the Investment Funds' positions, obligations, and liquidity requirements.

Summary Corporate Organizational Chart

Note: Percentages denote equity ownership as of September 30, 2026. Excludes intermediary and pass-through entities.

Diversified Subsidiary Companies with Significant Inherent Value

- IEP's subsidiary companies possess key competitive strengths and/or leading market positions
- IEP seeks to create incremental value by investing in organic growth and targeting businesses that offer consolidation opportunities

CVR Energy	Strategically located mid-continent petroleum fuels refiner and nitrogen fertilizer producer
Icahn Automotive / AAMCO Transmissions / Precision Tune Auto Care	Engaged in franchising and operating automotive repair and maintenance centers offering transmission repair, general automotive services, oil changes, lubrication, and other vehicle care services.
VISKASE	A worldwide leader in non-edible meat casings poised to capture further growth in emerging markets
Real Estate Segment	Long-term real estate portfolio primarily consisting of investment properties, development, clubs and resorts
WESTPOINT HOME	Over 200 year heritage with some of the best known brands in home fashion and hospitality
VIVUS	Dedicated to addressing the therapeutic needs of patients with serious medical conditions and life-limiting diseases

The Company's diversification across multiple industries and geographies provides a natural hedge against cyclical and general economic swings

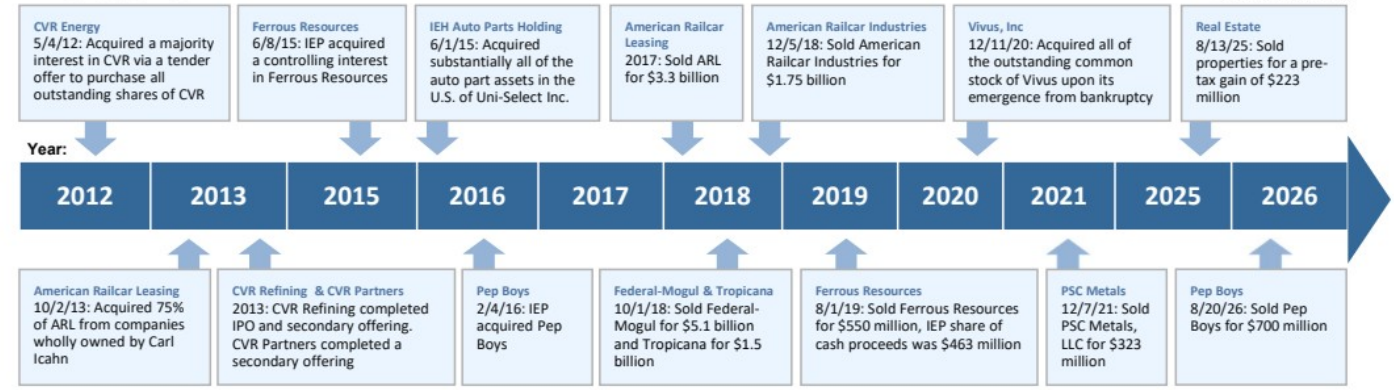

Evolution of Icahn Enterprises

- IEP began as American Real Estate Partners, which was founded in 1987, and now has diversified its portfolio to seven operating businesses and approximately $12 billion of assets as of September 30, 2026.
- IEP's record is based on a long-term horizon that can enhance business value for continued operations and/or facilitate a profitable exit strategy.
- IEP has demonstrated a history of successfully acquiring undervalued assets and improving and enhancing their operations and financial results.
  - In 2017, IEP sold American Railcar Leasing for $3.3 billion, resulting in a pre-tax gain of $1.7 billion.
  - In 2018, IEP sold Federal-Mogul for $5.1 billion, resulting in a pre-tax gain of $251 million, Tropicana for $1.5 billion, resulting in a pre-tax gain of $779 million, and American Railcar Industries for $1.75 billion, resulting in a pre-tax gain of $400 million.
  - In 2019, IEP sold Ferrous Resources for aggregate consideration of approximately $550 million (including repaid indebtedness), resulting in a pre-tax gain of $252 million.
  - In 2021, IEP sold PSC Metals for total cash consideration of approximately $323 million resulting in a pre-tax gain of $163 million.

(2) Based on the closing stock price of $6.75 and approximately 772.3 million depositary and general partner equivalent units outstanding as of September 30, 2026

Ability to Maximize Shareholder Value Through Proven Activist Strategy

- IEP seeks undervalued companies and often becomes "actively" involved in the targeted companies

Putting Activism into Action

- Activist strategy requires significant capital, rapid execution and willingness to take control of companies
- Implement changes required to improve businesses

- Mr. Icahn and Icahn Capital have a long and successful track record of generating significant returns employing the activist strategy
  - IEP's subsidiaries often started out as investment positions in debt or equity either directly by Icahn Capital or Mr. Icahn
- Active participation in the strategy and capital allocation for targeted companies
  - Not involved in day-to-day operations
- IEP will make necessary investments to ensure subsidiary companies can compete effectively

Overview of Operating Segments

Segment: Investment

Indicative Net Asset Value

Use of Indicative Net Asset Value Data

The Company uses indicative net asset value as an additional method for considering the value of the Company's assets, and we believe that this information can be helpful to investors. Please note, however, that the indicative net asset value does not represent the market price at which the depositary units trade. Accordingly, data regarding indicative net asset value is of limited use and should not be considered in isolation.

The Company's depositary units are not redeemable, which means that investors have no right or ability to obtain from the Company the indicative net asset value of units that they own. Units may be bought and sold on The Nasdaq Global Select Market at prevailing market prices. Those prices may be higher or lower than the indicative net asset value of the depositary units as calculated by management.

Indicative Net Asset Value

Footnotes to Company's calculation of Indicative Net Asset Value:

1) Represents GAAP equity attributable to IEP as of each respective date.
2) Based on closing share price on each date (or if such date was not a trading day, the immediately preceding trading day) and the number of shares owned by us as of each respective date.
3) For each period presented, management performed a valuation of Viskase with the assistance of third-party consultants to estimate fair-market value. This analysis utilized the average results of a discounted cash flow methodology and a guideline public company methodology. Different judgments or assumptions would result in different estimates of value. Viskase indicative net asset value is derived by allocating our portion of ownership to the total equity value.
4) For each period presented, management performed a valuation with the assistance of third-party consultants to estimate fair-market value, which utilized the results of discounted cash flow and sales comparison methodologies. Different judgments or assumptions would result in different estimates of value. In August 2025, certain properties were sold and as of September 30, 2025, the value of the consideration received and held in our Real Estate Segment consisted of preferred equity investment and debt and was used in the calculation of indicative fair value. As of September 30, 2026, the Real Estate Segment line item includes the retained leases from the sale of Pep Boys.
5) For each period presented, management performed a valuation of IAG, including the Automotive Services and Franchise businesses and Automotive Owned Real Estate. This analysis utilized the average results of a discounted cash flow methodology and a guideline public company methodology. Different judgments or assumptions would result in different estimates of value. During the fourth quarter of 2025 the majority of the Automotive Owned Real Estate was transferred to the Real Estate Segment and as of December 31, 2025 is presented in the Real Estate Segment line item. The Automotive Owned Real Estate for the actual properties transferred was valued at $652 for September 30, 2025. As of September 30, 2025, these properties were fair valued utilizing the average results of discounted cash flow and sales comparison methodologies for each property to estimate fair-market value. Different judgments or assumptions would result in different estimates of value. In August 2026, IAG completed the sale of Pep Boys – Manny, Moe & Jack Holding Corp. for $700 million, subject to customary post-closing adjustments, and received net proceeds of approximately $645 million. IAG retained the automotive franchise businesses of AAMCO Transmissions and Total Care ("AAMCO") and Precision Tune Auto Care ("PTAC").
6) Represents GAAP equity of the Holding Company Segment, excluding cash and cash equivalents, debt and non-cash deferred tax assets or liabilities. As of September 30, 2025, December 31, 2025, March 31, 2026, June 30, 2026, and September 30, 2026, Other Net Assets includes $9, $6, $5, $5, and $20 million respectively, of liabilities assumed from the Auto Plus bankruptcy and Pep Boys sale.
7) Holding Company's balance as of each respective date.

Adjusted EBITDA Reconciliations

Non-GAAP Financial Measures

The Company uses certain non-GAAP financial measures in evaluating its performance. These include non-GAAP EBITDA and Adjusted EBITDA. EBITDA represents earnings from continuing operations before net interest expense (excluding our Investment Segment), income tax (benefit) expense and depreciation and amortization. We define Adjusted EBITDA as EBITDA excluding certain effects of impairment, restructuring costs, transformation costs, certain pension plan expenses, gains/losses on disposition of assets, gains/losses on extinguishment of debt, the performance of closed stores and including closing costs, Energy segment unrealized gains/losses on hedging contracts, unrealized gains/losses on Renewable Fuel Standard ("RFS") positions, Energy segment inventory revaluation, and certain other non-operational or non-recurring charges. The Energy segment's basis for determining inventory value impacts are under a GAAP First-In, First-Out ("FIFO") basis. Changes in crude oil prices can cause fluctuations in the inventory valuation of crude oil, work in process and finished goods, thereby resulting in a favorable inventory valuation impact when crude oil prices increase and an unfavorable inventory valuation impact when crude oil prices decrease. The inventory valuation impact is calculated based upon inventory values at the beginning of the accounting period and at the end of the accounting period. We present EBITDA and Adjusted EBITDA on a consolidated basis and on a basis attributable to Icahn Enterprises net of the effects of non-controlling interests. We conduct substantially all of our operations through subsidiaries. The operating results of our subsidiaries may not be sufficient to make distributions to us. In addition, our subsidiaries are not obligated to make funds available to us for payment of our indebtedness, payment of distributions on our depositary units or otherwise, and distributions and intercompany transfers from our subsidiaries to us may be restricted by applicable law or covenants contained in debt agreements and other agreements to which these subsidiaries currently may be subject or into which they may enter into in the future. The terms of any borrowings of our subsidiaries or other entities in which we own equity may restrict dividends, distributions or loans to us.

We believe that providing EBITDA and Adjusted EBITDA to investors has economic substance as these measures provide important supplemental information of our performance to investors and permits investors and management to evaluate the core operating performance of our business without regard to interest, taxes and depreciation and amortization and certain effects of impairment, restructuring costs, certain pension plan expenses, gains/losses on disposition of assets, gains/losses on extinguishment of debt and certain other non-operational charges. Additionally, we believe this information is frequently used by securities analysts, investors and other interested parties in the evaluation of companies that have issued debt. Management uses, and believes that investors benefit from referring to, these non-GAAP financial measures in assessing our operating results, as well as in planning, forecasting and analyzing future periods. Adjusting earnings for these charges allows investors to evaluate our performance from period to period, as well as our peers, without the effects of certain items that may vary depending on accounting methods and the book value of assets. Additionally, EBITDA and Adjusted EBITDA present meaningful measures of performance exclusive of our capital structure and the method by which assets were acquired and financed. Effective March 31, 2026, we modified our calculation of Adjusted EBITDA to exclude the impacts of certain of our Energy segment results, including unrealized gains/losses on hedging contracts, unrealized gains/losses on RFS positions, and inventory revaluation. We believe that this revised presentation improves the supplemental information provided to our investors because management believes these are not attributable to or indicative of our underlying operational results of the period or that may obscure results and trends we deem useful and the significance of these measures have been disproportionately impacted by increased volatility in recent periods.

- EBITDA and Adjusted EBITDA have limitations as analytical tools, and you should not consider them in isolation, or as substitutes for analysis of our results as reported under generally accepted accounting principles in the United States, or U.S. GAAP. For example, EBITDA and Adjusted EBITDA:
- do not reflect our cash expenditures, or future requirements for capital expenditures, or contractual commitments;
- do not reflect changes in, or cash requirements for, our working capital needs; and
- do not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments on our debt.

Although depreciation and amortization are non-cash charges, the assets being depreciated or amortized often will have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements. Other companies in the industries in which we operate may calculate EBITDA and Adjusted EBITDA differently than we do, limiting their usefulness as comparative measures. In addition, EBITDA and Adjusted EBITDA do not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations.

EBITDA and Adjusted EBITDA are not measurements of our financial performance under U.S. GAAP and should not be considered as alternatives to net income or any other performance measures derived in accordance with U.S. GAAP or as alternatives to cash flow from operating activities as a measure of our liquidity. Given these limitations, we rely primarily on our U.S. GAAP results and use EBITDA and Adjusted EBITDA only as a supplemental measure of our financial performance.
