## Forward-Looking Statements

This presentation contains certain statements that are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements included herein, other than statements that relate solely to historical fact, are "forward-looking statements." Such statements include, but are not limited to, any statement that may predict, forecast, indicate or imply future results, performance, achievements or events, or any statement that may relate to strategies, plans or objectives for, or potential results of, future operations, financial results, financial condition, business prospects, growth strategy or liquidity, and are based upon management's current plans and beliefs or current estimates of future results or trends. Forward-looking statements can generally be identified by phrases such as "believes," "expects," "potential," "continues," "may," "should," "seeks," "predicts," "anticipates," "intends," "projects," "estimates," "plans," "could," "designed," "should be" and other similar expressions that denote expectations of future or conditional events rather than statements of fact. Our expectations, beliefs and projections are expressed in good faith, and we believe that there is a reasonable basis for them. However, there can be no assurance that these expectations, beliefs and projections will result or be achieved.

There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements contained in this presentation, including economic, competitive, legal and other factors, including the severity, magnitude and duration of the COVID-19 pandemic, and any impacts from the Russia/Ukraine conflict. These and other risks and uncertainties are described in our Annual Report on Form 10-K for the year ended December 31, 2021, our Quarterly Report on Form 10-Q for the Quarter ended March 31, 2022, and our other filings with the SEC. There may be other factors not presently known to us or which we currently consider to be immaterial that may cause our actual results to differ materially from the forward-looking statements.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this presentation and are expressly qualified in their entirety by the cautionary statements included in this presentation. Except to the extent required by law, we undertake no obligation to update or revise forward-looking statements to reflect events or circumstances after the date such statements are made or to reflect the occurrence of unanticipated events.

## Non-GAAP Financial Measures

This presentation contains certain non-GAAP financial measures, including EBITDA, Adjusted EBITDA and Indicative Net Asset Value.

The non-GAAP financial measures contained herein have limitations as analytical tools and should not be considered in isolation or in lieu of an analysis of our results as reported under U.S. GAAP. These non-GAAP measures should be evaluated only on a supplementary basis in connection with our U.S. GAAP results, including those reported in our consolidated financial statements and the related notes thereto contained in our Annual Report on Form 10-K for the year ended December 31, 2021, and our Quarterly Report on Form 10-Q for the Quarter ended March 31, 2022. A reconciliation of these non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures can be found in the back of this presentation.

# Ability to Maximize Shareholder Value Through Proven Activist Strategy

- IEP seeks undervalued companies and often becomes “actively” involved in the targeted companies

## Putting Activism into Action

- Activist strategy requires significant capital, rapid execution and willingness to take control of companies
- Implement changes required to improve businesses

### Purchase of Stock or Debt

#### • IEP pursues its activist strategy and seeks to promulgate change.

- Dealing with the board and management
- Proxy fights
- Tender offers
- Taking control

#### • IEP’s investment and legal team is capable of unlocking a target’s hidden value.

- Financial/balance sheet restructuring
- Operation turnarounds
- Strategic initiatives
- Corporate governance changes

- Mr. Icahn and Icahn Capital have a long and successful track record of generating significant returns employing the activist strategy
  - IEP’s subsidiaries often started out as investment positions in debt or equity either directly by Icahn Capital or Mr. Icahn
- Active participation in the strategy and capital allocation for targeted companies
  - Not involved in day-to-day operations
- IEP will make necessary investments to ensure subsidiary companies can compete effectively

## Deep Team Led by Carl Icahn

---

- Led by Carl Icahn
  - Substantial investing history provides IEP with a unique network of relationships and access to Wall Street
- Team consists of professionals with diverse backgrounds
  - Well rounded team with professionals focusing on different areas such as equity, distressed debt and credit

# IEP Summary Financial Information

## Use of Indicative Net Asset Value Data

The Company uses Indicative Net Asset Value as an additional method for considering the value of the Company's assets, and we believe that this information is more indicative of value than our assets presented in accordance with GAAP. Over the last few years, we have invested significantly in companies in which we have majority control, and we believe the market value of these companies has increased more than is reflected in the change in their GAAP asset value. Only when we sell companies, as exemplified by the sale of PSC Metals, LLC, will our GAAP financial statements capture true market values. Certain of our real estate assets were valued to reflect estimated market values which are substantially different from the GAAP asset values. Please note, however, that the indicative net asset value does not represent the market price at which the depositary units trade or the value that we would realize on a sale of the particular assets, especially those where the value is not based on trading or market value. Accordingly, data regarding Indicative net asset value is of limited use and should not be considered in isolation.

Indicative net asset value does not purport to reflect a valuation of IEP. The calculated Indicative net asset value does not include any value for our Investment Segment other than the fair market value of our investment in the Investment Funds. A valuation is a subjective exercise and Indicative net asset value does not necessarily consider all elements or consider in the adequate proportion the elements that could affect the valuation of IEP. Investors may reasonably differ on what such elements are and their impact on IEP. No representation or assurance, express or implied, is made as to the accuracy and correctness of Indicative net asset value as of these dates or with respect to any future indicative or prospective results which may vary.

### Footnotes to Company's calculation of Indicative Net Asset Value:

- (1) Represents equity attributable to us as of each respective date.
- (2) Based on closing share price on each date (or if such date was not a trading day, the immediately preceding trading day) and the number of shares owned by the Holding Company as of each respective date.
- (3) Amounts based on market comparable due to lack of material trading volume, valued at 9.0x Adjusted EBITDA for the twelve months ended as of each respective date.
- (4) Prior to Q3 2021, value represents GAAP equity attributable to us as of each respective date. On October 29, 2021, we announced a definitive agreement to sell PSC Metals, LLC for total consideration of approximately \$290 million (including indebtedness that will be repaid at closing, and subject to customary working capital adjustments). The amount as of September 30, 2021 is based on the anticipated sales price as of September 30, 2021. On December 7, 2021, we closed on the previously announced sale of 100% of the equity interests in PSC Metals. In connection with this sale, we received proceeds of \$323 million and recognized a pretax gain on sale of \$163 million.
- (5) Prior to Q3 2021, our presentation of Indicative Net Asset Value with respect to Icahn Automotive Group ("IAG") was based on the equity attributable to us as of each respective date. IAG has been in the process of implementing a multi-year transformation plan, which includes restructuring of its businesses, including an extensive real-estate optimization project which resulted in closing underperforming retail locations in the majority of 216 owned locations. Given the change in the use of the real estate assets, management determined a change in how Indicative Net Asset Value is estimated would provide a more meaningful measure of the assets' fair-market-value. Management performed a valuation on the owned real-estate with the assistance of third-party consultants to estimate fair-market-value. This analysis utilized property-level market rents, location level profitability, and utilized prevailing cap rates ranging from 5.5% to 6.5%. The valuation assumed that triple net leases are in place for all the locations at rents estimated by management based on market conditions. There is no assurance we would be able to sell the assets on the timeline or at the prices and lease terms we estimate. Different judgments or assumptions would result in different estimates of the value of the real estate assets. Moreover, although we evaluate and provide our Indicative Net Asset Value on a quarterly basis, the estimated values may fluctuate in the interim, so that any actual transaction could result in a higher or lower valuation.
- (6) Prior to Q4 2021, Automotive Services represents equity attributable to us. Starting Q4 2021, Automotive Services is valued based on market comparable using a multiple. As of December 31, 2021, Services is valued at 14.0x Adjusted EBITDA for the trailing twelve months period.
- (7) Holding Company's balance as of each respective date, excluding non-cash deferred tax assets or liabilities. Furthermore, with respect to March 31, 2021, the distribution payable was adjusted to \$27 million, which represents the actual distribution paid subsequent to March 31, 2021. With respect to March 31, 2022, the distribution payable was adjusted to \$49 million, which represents the actual distribution paid subsequent to March 31, 2022.
- (8) Holding Company's balance as of each respective date.

## Adjusted EBITDA Reconciliations

---

## Non-GAAP Financial Measures

---

The Company uses certain non-GAAP financial measures in evaluating its performance. These include non-GAAP EBITDA and Adjusted EBITDA. EBITDA represents earnings from continuing operations before interest expense, income tax (benefit) expense and depreciation and amortization. We define Adjusted EBITDA as EBITDA excluding certain effects of impairment, restructuring costs, certain pension plan expenses, gains/losses on disposition of assets, gains/losses on extinguishment of debt and certain other non-operational charges. We present EBITDA and Adjusted EBITDA on a consolidated basis and on a basis attributable to Icahn Enterprises net of the effects of non-controlling interests. We conduct substantially all of our operations through subsidiaries. The operating results of our subsidiaries may not be sufficient to make distributions to us. In addition, our subsidiaries are not obligated to make funds available to us for payment of our indebtedness, payment of distributions on our depositary units or otherwise, and distributions and intercompany transfers from our subsidiaries to us may be restricted by applicable law or covenants contained in debt agreements and other agreements to which these subsidiaries currently may be subject or into which they may enter into in the future. The terms of any borrowings of our subsidiaries or other entities in which we own equity may restrict dividends, distributions or loans to us.

We believe that providing EBITDA and Adjusted EBITDA to investors has economic substance as these measures provide important supplemental information of our performance to investors and permits investors and management to evaluate the core operating performance of our business without regard to interest, taxes and depreciation and amortization and certain effects of impairment, restructuring costs, certain pension plan expenses, gains/losses on disposition of assets, gains/losses on extinguishment of debt and certain other non-operational charges. Additionally, we believe this information is frequently used by securities analysts, investors and other interested parties in the evaluation of companies that have issued debt. Management uses, and believes that investors benefit from referring to, these non-GAAP financial measures in assessing our operating results, as well as in planning, forecasting and analyzing future periods. Adjusting earnings for these charges allows investors to evaluate our performance from period to period, as well as our peers, without the effects of certain items that may vary depending on accounting methods and the book value of assets. Additionally, EBITDA and Adjusted EBITDA present meaningful measures of performance exclusive of our capital structure and the method by which assets were acquired and financed.

EBITDA and Adjusted EBITDA have limitations as analytical tools, and you should not consider them in isolation, or as substitutes for analysis of our results as reported under generally accepted accounting principles in the United States, or U.S. GAAP. For example, EBITDA and Adjusted EBITDA:

- do not reflect our cash expenditures, or future requirements for capital expenditures, or contractual commitments;
- do not reflect changes in, or cash requirements for, our working capital needs; and
- do not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments on our debt.

Although depreciation and amortization are non-cash charges, the assets being depreciated or amortized often will have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements. Other companies in the industries in which we operate may calculate EBITDA and Adjusted EBITDA differently than we do, limiting their usefulness as comparative measures. In addition, EBITDA and Adjusted EBITDA do not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations.

EBITDA and Adjusted EBITDA are not measurements of our financial performance under U.S. GAAP and should not be considered as alternatives to net income or any other performance measures derived in accordance with U.S. GAAP or as alternatives to cash flow from operating activities as a measure of our liquidity. Given these limitations, we rely primarily on our U.S. GAAP results and use EBITDA and Adjusted EBITDA only as a supplemental measure of our financial performance.
